about_Speaker

- Software developer
 - .NET Core and EF Core;
- DIY and IoT enthusiast;
- RaspberryPi fan;
- Always taking new challenges;
- Always ready to learn;

This Session

You will:

- Learn more about the Raspberry Pi (RPi);
- Understand how it is able to run PowerShell;
- Learn how to install PowerShell on it;
- Learn how to set up remote sessions;
- Learn how to debug a script that's running on the RPi;

Agenda

- What's a Raspberry Pi and what are its' specifications?;
 - Comparison between RPi3b and RPi Zero W
- Why Am I spending time doing this?;
- How is it possible?;
- How easy it is to setup PowerShell on it?;
- Microsoft.PowerShell.IoT
- Debug a script running on the RPi;
 - Configure the SSHServer;
- What's next?

What's a Raspberry Pi ?

- Single Board Computer (SBC);
- Developed in the UK, by the Raspberry Pi Foundation;
- Designed to teach young people and help people to get access to digital content;
- By March 14th 2018, 19 million units were sold (9 million of them were RPi 3b)¹

¹<https://www.raspberrypi.org/blog/raspberry-pi-3-model-b-plus-sale-now-35/>

RPi 3b specifications

SoC: Broadcom BCM2837

CPU: 4× ARM Cortex-A53, 1.2GHz

GPU: Broadcom VideoCore IV

RAM: 1GB LPDDR2 (900 MHz)

Networking: 10/100 Ethernet, 2.4GHz 802.11n wireless

Bluetooth: Bluetooth 4.1 Classic, Bluetooth Low Energy

Storage: microSD

GPIO: 40-pin header, populated

Ports: HDMI, 3.5mm analogue audio-video jack, 4× USB 2.0, Ethernet, Camera Serial Interface (CSI), Display Serial Interface (DSI)

Taken from <https://www.raspberrypi.org/magpi/raspberry-pi-3-specs-benchmarks/>

 @DanielSilv9

Why am I spending time doing this?

- Learn more about PowerShell;
- Learn about different environments;
- Ask questions about things I don't know;
- Find bugs;
- Empower other developers, by sharing what I've learned and showing what can be done;
- PowerShell and .NET are "small" on the Pi community, compared to other languages

How is it possible?

DEMO

Let's install PowerShell!
(and do almost everything else)

What's next?

- Incoming migration
- [Azure SQL Database Edge](#)

Summary

- How can this tiny computer run PowerShell;
- How to install PowerShell;
- Introduction to PowerShell IoT
- Configure the SSHServer to allow remote;
- Debug a script that's running on the Raspberry

Slides and demo code
